

DISCUSSION COURSE ON

## SUSTAINABLE SYSTEMS AT WORK

*At the end of the day, the role of business is to generate prosperity and a better quality of life for everyone... we should never operate at the expense of the earth or societies or future generations.*

Our newest discussion guide is a five session course designed to further organizational sustainability. Sessions will help participants:

- Evaluate the current economic model and consider the case for change;
- Examine the concept of sustainability from an organizational perspective;
- Evaluate principles and frameworks for guiding a vision;
- Identify tools and strategies for implementing a framework; and
- Develop an Action Plan to advance organizational change.
